AREA WOODWORKERS HEAR TALK BY UNION PRESIDENT

An open meeting sponsored by Locals No. 77 of Locke Mills and Bryant Pond, and No. 173 of Norway and South Paris, was held in Locke Mills last Tuesday evening, Aug. 9. Morris Pizer, International President of the United Furniture Workers, addressed a gathering of about 150 woodworkers from the surrounding area.

Keith Ring, President of Local No. 77 presided at the meeting and introduced to the workers other officers of his Local in addition to introducing Homer Smith, President of Local No. 173, who in turn introduced officers of his Local. Also present were International representatives, Francis O'Connor and Tony Marino. All were introduced, spoke to the gathering and lauded the efforts of the organized woodworkers in the area to make gains and organize the unorganized workers.

Mr. Pizer, the honored guest and main speaker of the evening was accompanied by Mrs. Pizer throughout his visit and expressed the feelings of both when he said, "the country side is breathtaking."

Several times during his talk, Mr. Pizer's tone changed to one of a lecturer and his remarks dealt with an interesting inside history of the labor movement linked with his personal experiences over the past 40 years of his labor career. He referred to the racial gains made in America as the result of the contributions made by labor unions such as Social Security and Unemployment Compensation. "These are helpful but not sufficient," continued from Page Eight

COMMENTS FROM THE TOWN MANAGER'S OFFICE

There will be a special town meeting on Monday, August 22. There will be at least four articles in the warrant that will be posted Monday, August 15. The attendance at special town meetings is usually very poor. As always, I would like to urge every citizen of the town to familiarize himself with the articles to be voted upon. I will briefly explain the articles and the warrant will be posted next week. The complete warrant for the meeting will be printed in the Bethel Citizen next week.

One of the articles asks for authorization to borrow \$15,000.00 to purchase a new four wheel drive truck. The money will be paid back from the equipment rental account over a period of four years. The town needs a dependable four wheel drive truck. It is a piece of equipment that is used for several years. The last one that was purchased is 15 years old. It is easy to justify having the use of the vehicle for the next four years while it is being paid for. With the purchase of a new 4x4 truck, the highway equipment will be in pretty good shape.

Another article will request funds for an overdraft in the police account. Along these lines, there are two other articles. The curfew ordinance that was defeated at the 1965 annual town meeting will be voted on again. The article will be just the same as it was last year.

The other ordinance to be voted upon is completely new. The article reads: "To see if the town will vote to adopt the following ordinance: No person, persons or groups of persons shall enter on foot or in a motor vehicle or vehicles, upon any street, way, sidewalk or other public place within the built-up section of the Town after having been requested to move by any constable or other police officer. Any person who violates this ordinance shall be punished by a fine not exceeding \$20.00. Any person convicted of a second or subsequent offense hereunder shall be punished by a fine not exceeding \$50.00."

The complete text of the warrant will be in the paper next week.

SURVEY TO DETERMINE SHELTER POTENTIAL IN 1-2-3 FAMILY HOMES

Governor John H. Reed announced Wednesday, August 10, at a special news conference held in the State Civil Defense Operating Center, that a Home Shelter Survey will be made of all one, two, and three-family homes in the State of Maine beginning this week.

The purpose of the survey is to determine which homes have basements that family members could use as fallout shelters in case of a nuclear attack.

The Home Shelter Protection is being conducted jointly by the State of Maine, the U. S. Office of Civil Defense and the U. S. Census Bureau.

According to the Governor the Census Bureau will mail approximately 300,000 questionnaires to Maine residents this week.

Householders will be asked to answer a few simple questions about the size, type, and construction features of his home, contained in the questionnaire, and to return it to the Census Bureau.

From the information received the Census Bureau will put the data through an electronic data processing machine and the results of the computer analysis will be sent to the householders by mail telling the degree and location of fallout protection existing in his home.

The householders also will be furnished a booklet explaining expedient measures which can be taken to improve that protection as well as what actions should be taken in case of a nuclear attack. —continued on Page Five

PEDESTRIAN ACCIDENTS INCREASE ON MAINE ROADS

The Executive Secretary of the Maine Highway Safety Committee has spoken out on a recent upsurge of pedestrian accidents. According to Peter McKenney, the pedestrian accident blame is a two-fold picture. The fault is not necessarily that of the driver. As a matter of fact, McKenney pointed out, the National Safety Council has cited that pedestrian accidents are mostly the fault of the pedestrians and not the drivers.

McKenney said that in Maine, as with the national picture, pedestrians involved are either very young or very old. He said, "Evidently our early school grades are not emphasizing the pedestrian safety concept enough. This is not a reflection on school systems, but rather a call for a stepped-up effort on their parts." He blamed safety propagation for not getting to older citizens.

He did say, however, that even though the pedestrian is at fault every driver should be ready to avoid a pedestrian accident should a pedestrian make a mistake.

Maine is currently running six pedestrian deaths ahead of last year at this same time.

At the Sept. 3 meeting a taping party will be held. The following program was presented, music, grange orchestra; talk, Lettie Brooks; fashion show, with Philip House, as arranger and announcer, with the following as models, Carl Brooks, Harris Hathaway, Ray Hanscom, Guy Emery and Tommy House.
